Summary

Frontend Developer experienced in translating UI/UX designs into intuitive web applications using HTML, CSS, Javascript or React. Proficient in integrating backend functionality with advanced frontend components to create smooth and engaging user experiences. Committed to leveraging development expertise to elevate existing and upcoming projects, driving creativity and innovation in fast-paced environments.

Skills

Industry Knowledge: Software Development, Web Development, Research, Spatial Analysis, Social media managing, Typing, Photography and GIS Analysis

Tools & Technologies: HTML, CSS, JavaScript, Tailwind CSS, React.js, HTML5, CSS3, React/Redux, RESTful APIs, firebase and Appwrite

Interpersonal Skills: Communication

Additional Technical Skills: Microsoft Word, Geographic Information Systems (GIS), GIS Software, ArcGIS Desktop

Work Experience

Pedxo

Frontend Developer (Volunteer)

Remote, Nigeria

Sept 2024 – Jan 2025

- Transforms UI/UX designs into interactive React components, fostering creativity and innovation in web development.
- Ensures device-optimized websites for consistent user experiences using HTML5 and CSS3.
- Builds reusable, maintainable components adhering to best practices for scalable and efficient front-end architecture, leveraging ES6+ JavaScript features.
- Collaborates with diverse teams to execute project timelines and deliver high-quality web applications.
- Conducts rigorous testing and debugging for application stability, utilizing React/Redux components.
- Utilizes Git for efficient version control and collaboration on technology products throughout their lifecycle.

TechVerse

Frontend Developer (Intern)

Remote, Nigeria

Sept 2023 – Dec 2023

- Developed interactive React components based on UI/UX designs, focusing on creating user-friendly and engaging web interfaces.
- Ensured websites were fully responsive and optimized for various devices using modern HTML5 and CSS3 techniques.
- Created reusable and maintainable components while following best practices for scalable front-end development with ES6+ JavaScript.
- Collaborated with cross-functional teams to meet project deadlines and deliver high-quality web applications.
- Conducted thorough testing and debugging of applications to maintain stability and enhance functionality using React and Redux.
- Leveraged Git for version control, ensuring smooth collaboration and efficient code management throughout the development lifecycle.

OSGOF

Geodesy Intern

Abuja, Nigeria

Jun 2023 - Sept 2023

- Expertly utilize ArcGIS for comprehensive map creation and spatial analysis.
- Digitize and manage geospatial data, ensuring high-quality and up-to-date datasets for project use.
- Assists in the preparation of technical drawings, maps, and reports for presentation to clients and regulatory bodies.
- Utilizes total station equipment for precise measurements and data collection.

Education

University of Benin

Bachelor's degree, Geomatics

Jan 2024

- Grade: 3.92 GPA
- Course work: surveying and mapping, GIS and remote sensing, geodesy and photogrammetry, operational research, data processing

Projects

TechVerse

Kropp-fitness

<https://kropp-fitness.vercel.app/>

- Developed a fully functional fitness website using HTML, CSS, and JavaScript, demonstrating a strong foundation in front-end development.
- Created a responsive and visually appealing UI, ensuring seamless user experience across different screen sizes.
- Implemented dynamic features such as interactive buttons, smooth scrolling, and animations to enhance user engagement.
- Deployed the project on Vercel, gaining hands-on experience in deployment and hosting React applications.
- Strengthened core web development skills before transitioning to ReactJS, ensuring a solid foundation in front-end technologies.

A Colourist Porfolio

<https://courage-portfolio.vercel.app/>

Colourist

- Built a fully responsive and interactive portfolio using ReactJS and TailwindCSS, tailored to showcase the creative work of a Colourist.
- Crafted a unique and witty dark mode toggle, transforming the site's vibe while playfully engaging users through themed color palettes and subtle design touches.
- Developed reusable, modular components to enhance consistency and streamline development.
- Implemented React Router for smooth in-app navigation and an intuitive user experience.
- Demonstrated self-motivation and a strong learning curve by independently executing the entire project deployment.

Personal React Project

<https://smartwealth-alpha.vercel.app/>

Smart Wealth

- Built a full-fledged web application using React as a beginner, demonstrating a strong ability to learn and implement new technologies.
- Implemented reusable components to enhance maintainability and improve development efficiency.
- Utilized React Hooks (e.g., useState, useEffect) for state management and component lifecycle handling.
- Styled the application with Tailwind CSS, ensuring a responsive and visually appealing user interface.
- Managed application routing using React Router for seamless navigation between pages.
- Showcased initiative and self-learning abilities, building a project independently and expanding knowledge beyond the basics.

Certifications

Introduction to Programming using HTML and CSS: Programming Hub

Responsive Web Design: freeCodeCamp • 2022
